

# Junior IC Quality & Reliability Engineer

Job ID: 866842 | Annapurna Labs LTD

## DESCRIPTION

Are you an electrical/biomedical engineering or physics major?  
Interested in semiconductor physics and integrated circuits?

Enjoy staging experiments and finding that you were right (or wrong)?

Like building models and predicting future?

Appreciate a charming magic of statistics?

Fond of finding telling-it-all patterns in a sea of data? Have a sense of humor and healthy drop of cynicism?

Looking for challenging, meaningful and rewarding job with the broadest interdisciplinary exposure?

Want to become a member in an elite club of professionals?

If yes, as they say, you have reached your destination!

Start your climb - come to Annapurna, we will help you to become a Quality and Reliability expert!

## BASIC QUALIFICATIONS

Education:

- B.Sc. degree in Electrical/Biomedical Engineering/ Applied Physics

## PREFERRED QUALIFICATIONS

- Knowledge in reliability simulations.
- Knowledge in computer networks.
